THE NEWS OF THE WEEK.

A Daily Resume of Important Happenings.

March 17.

Ex-Gov. Taylor, of Tennessee, practically announced his candidacy for the United States Senate to succeed Senator Carmack two years hence.

President Roosevelt will visit Louisville April 4. The President leaves his train at Third avenue and a street car will be escorted in Third avenue. At Fourth avenue and Broadway, where the President will be met by a cohort of Confederate veterans, a halt will be made while he delivers a short address to the veterans.

The Court of Appeals took under submission the petition for a writ of prohibition sought by Justice Beale, of Clark county, to restrain Circuit Judge Hilditch, of Hancock county, from enforcing against him a rule of contempt for failure to deliver those held by him to a special jury. The writ was granted.

Secretary of War Taft, in a letter which he has made public, voices the policy of the Administration respecting the failure of the Philippines. Secretary Taft states that this policy contemplates indefinite retention of the islands with the possibility, in the remote future, of independence of them. The Secretary seems to regard this as possible, but not probable, in the time of the next generation.

The joint convention of the Colorado General Assembly yesterday elected Gov. Alva Adams and Senator James H. Peabody as Governor and U. S. Senator, respectively, by a vote of fifty-one and fifty-one. The vote was taken after a promise was obtained that Peabody would resign after this session and allow Lieut. Gov. McComb, also a Republican, to become Governor. Four of the principal opponents interested in the success of the Republicans in the contest gave place. But Peabody would resign if elected. Adams during the day urged his resignation to the office by force but he ignored the advice.

According to advice received at Washington, President Castro, of Venezuela, is maintaining his belief in the study and making preparations for war. He has mounted six new machine guns and a number of smaller guns on the heights overlooking La Guaira and Porto Cabello and has three small coast defense vessels in each reach. There is a constant movement of the troops of his military army, which is composed mostly of Indians and negroes. One of Castro's advisers, Col. Llanero, has issued a bombastic circular in which plans for sending 30,000 Venezuelans to attack New Orleans are disclosed. It is said that one of the diplomats has been able to have an interview with Castro for many months, and some of them are debating that the existing situation cannot be prolonged.

March 18.

It has been discovered in Washington that a number of Federal Judges have been violating the law which forbids the appointment of relatives of such Judges to offices in the courts of which they are members.

The Court of Appeals affirmed the decision of the Harrison Circuit Court sentencing Tom White to life imprisonment in the State penitentiary for complicity with Curtis Jett in the assassination of James B. McMurran at Jackson, May 4, 1903.

The Hon. Thomas H. Bayner, of Greenup, member of the Court of Appeals for the Sixth appellate district, formerly announced his candidacy before the Democratic joint caucus of the next General Assembly for the office of United States Senator, to succeed Senator Blackburn. He stated that he would represent no faction.

France has officially informed the United States of the action of the Venezuelan Government against the French Cable Company which she regards as high-handed. It is probable that the President Antezero will continue with President Roosevelt next week for the purpose of issuing the policy which this Government proposes to follow in Venezuela, so that the French Government may adopt a similar line of policy.

The resignation of Gov. Peabody, of Colorado, was produced yesterday and filed with the Secretary of State. It was immediately certified and Lieut. Gov. McComb was sworn in as Governor. Peabody's resignation was written Wednesday and placed in the hands of a Colorado Springs man for safekeeping. Gov. Adams declared yesterday that he had submitted to an outrage that could not be peacefully prevented.

The President attended the annual dinner of the Friendly Sons of St. Patrick in New York yesterday, as guest of honor. He made a speech in the Irish elements in our population. Among other things he said the Irish were a masterful race of rugged character, hard workers and great fighters, but also doing their share toward the artistic development of the country. The President attended the wedding of his niece, Miss Blanche Roosevelt, and gave away the bride. He was greeted by thousands wherever he appeared.

Kuropatkin has left the Russian army and is returning to Russia.

Secretary in disgrace. Gen. Lincolnton has assumed command and the few dispatches from the east of war indicate that the Japanese are still moving north, intending to cut the railway and prevent the Russian retreat to Harbin. There is a possibility that the line has already been cut, and rumors to that effect are prevalent in St. Petersburg. Reinforcements for the Russian army are leaving Harbin for the north. Both Germany and France are making efforts for peace, but the czar still repudiates every suggestion of the kind.

Senator Morgan yesterday offered and distributed the Senate to accept a resolution calling on the Committee on Foreign Relations to study to examine into the negotiations and correspondence between the United States and Santo Domingo, and the relations of all persons to such negotiations. The Senator said that if such investigations should be made, the truth of the charges advanced by him, relative to the conduct of William Nelson Cromwell, of New York, with the affairs of Santo Domingo and the United States would be proven. Mr. Cromwell yesterday issued a statement denying the charges affecting him. It is expected that the Senate will adjourn today and will either recommit the treaty or allow it to lapse. It is the purpose of the State Department to proceed with the collection of Dominican customs.

March 19.

Ex-Gov. Alva Adams, of Colorado, yesterday issued a statement, in which he said that he had been elected Governor and U. S. Senator, respectively, by a vote of fifty-one and fifty-one. The vote was taken after a promise was obtained that Peabody would resign after this session and allow Lieut. Gov. McComb, also a Republican, to become Governor. Four of the principal opponents interested in the success of the Republicans in the contest gave place. But Peabody would resign if elected. Adams during the day urged his resignation to the office by force but he ignored the advice.

Secretary of State Hay was taken suddenly ill yesterday while going on board the steamship Celtic for a voyage to the Mediterranean. The Secretary recoiled as he went up the plank and would have fallen had he not been supported by a friend. As the steamer passed Sandy Hook she displayed a signal saying the Secretary was much better. No word of his condition probably will be received until the Celtic reaches the Azores.

The extra session of the United States Senate adjourned sine die yesterday without taking final action on the proposed treaty with Santo Domingo. It thus goes over and will be on the calendar when the Senate meets again. Outside of H. Reeder and wife, composing the "Reeder syndicate," yesterday issued a statement in which they claim that they had concluded an agreement with the Dominican Republic by which Mrs. Reeder was to act as its agent in negotiating a treaty with the United States looking to its fiscal rehabilitation, when President McComb was notified from Washington that Commissioner Williamson would be sent at once to Santo Domingo to see that the treaty was carried out. The Reeder syndicate also stated that previous to entering into negotiations with the Dominican Government they had consulted William Nelson Cromwell, of New York, as their attorney. Mr. Cromwell yesterday issued a statement again denying any connection whatever with the Reeder syndicate with the affairs of the Republic.

The Chinese at Harbin say notification has been received that the Japanese will enter that city on April 10 and there is great excitement in consequence. It is reported from Yinkow that the Russian coast guard is fighting a heavy action in the vicinity of Kailuom, about twenty miles north of the coast. Reports from Kurupatkin and Lincolnton have been received at St. Petersburg, merely advising the Emperor of the transfer of command of the Russian army. The Russian Government continues to declare that whatever the fate of Harbin or the Eastern army the war will be continued. There are still no data from the battle of Mukden with reference to the Russian casualties. Internal conditions in Russia are said to be showing some improvement. Moscow, however, is still a storm center, and the police have discovered evidence there of a widespread terrorist plot. About 300 persons have been arrested on suspicion of being connected with the revolutionary movement. Mobilization of a new army has begun and the orders to Admiral Rozhdestvensky to try coastwise with Togo are still in effect.

March 20.

John M. Weaver, said to be the eldest Knight Templar in Louisville, died last evening. He had been a member of Louisville Commandery, No. 1, for fifty-four years.

The Panama Canal Commission has prepared and filed with the Secretary of War a letter replying in detail to the criticism made by Dr. C. A. L. Black. The commission takes up the charges in detail, and shows that they are all "unfoundedly false."

Home Made

Have your cake, muffins, and tea biscuit home-made. They will be fresher, cleaner, more tasty and wholesome.

Royal Baking Powder helps the housewife to produce at home, quickly and economically, fine and tasty cake, the raised hot-biscuit, puddings, the frosted layer-cake, crisp cookies, crullers, crusts and muffins, with which the ready-made food found at the bake-shop or grocery does not compare.

Royal is the greatest of bake-day helps.

ROYAL BAKING POWDER CO., NEW YORK.

Gen. Stephen D. Lee, Commander-in-Chief of the Confederate Veterans, has issued an order appointing Miss Clara Peyton Wheeler, daughter of Gen. Joseph Wheeler, spouse for the South for the Louisville reunion. Miss Clara Haldeman, of Louisville, and Miss Lena Swift, of Atlanta, are appointed maids of honor. Mrs. Henry Houser, of Louisville, is appointed toastmaster.

The proposition advanced by some members of Congress to place a duty on coffee is exciting considerable interest. The idea was suggested tentatively, it is said, for the purpose of arousing the public. It is thought that the inhabitants of our island possessions may turn their attention to making coffee if encouraged by the imposition of a duty upon importations of the product from other countries.

A dispatch from St. Petersburg says powerful influences, including several of the Emperor's ministers, are working to bring about the time has come to indicate to Japan "Russia's desire for peace on a reasonable basis." One of the Emperor's ministers is quoted as saying that Russia can make "a dignified peace without glory, but not without honor." He suggests as a partial programme that Russia should renounce her entire Manchurian policy.

In two explosions in the Red Ash and Bush this village at Fire Creek, W. Va., Saturday night at least twenty-four men were killed. Eleven of the dead were members of a rescue party who were caught by a second explosion in the mine while attempting to go to the scene of the first accident. On account of gas it was not considered safe to enter the mines yesterday, but to-day an effort will be made to recover the bodies of the victims. The two mines are connected and are operated under the same management.

A dispatch from Port of Spain, Trinidad, says the Venezuelan troops, by order of President Castro, have taken possession of coal mines near Bluefield, which were leased in 1895 to an Italian company for a term of thirty-three years by the Venezuelan Government. The Italian Chargé d'Affaires is said to have entered a protest. Minister Bowen has informed the State department at Washington that the French Government has made a formal protest against the proposed seizure of the French Oil Company's property by Venezuela.

A report received at Tokyo from the Japanese army in the field says the Russians evacuated Kailuom on Saturday after setting fire to the railroad station. Gen. Lincolnton, in a telegram dated Saturday, tells of the occupation of Kailuom by the Japanese and says "our armies continue their concentration." There is a report in St. Petersburg that Gen. Kurupatkin will remain in Manchuria and assume a subordinate command but it is without verification. Dispatches from Gushu Pass say that Kurupatkin's train left Saturday for St. Petersburg. Heated reports from the Japanese army tell of hard pursuit of the Russians, severe weather and frequent fighting.

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition, beauty, vigor and cheerfulness. It is the most common of diseases. Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one dollar sizes. You may have a sample bottle by mail. Write to J. C. Smith, 100 N. 3rd St., Buffalo, N. Y., for more and mention this paper.

Mrs. F. T. D. Wallace entertained Tuesday afternoon at an informal and delightful affair. The ladies were invited to take their evening, but there was little accomplished in that line as an interesting guessing contest had been prepared which proved very entertaining. Small cards containing twelve riddles descriptive of that many wads were given to each and from these they were to guess the words, each of which began with the syllable "wa." Mrs. Horton and Mrs. Turner succeeded in finding the hidden "can" in each of the verses. The bell-shaped tully oinks and a coronation made pretty souvenirs.

An elegant luncheon was served in four courses and consisted of salad, toast and butter, pickles, orange-ice, cake, coffee and nutty. The invited guests all of whom responded and immensely enjoyed the afternoon were: Mrs. P. C. Turner and mother, Mrs. Bank, of Maryland, Mrs. F. H. Harrington, of Albany, N. Y., Mrs. W. F. Shipman and guest, Mrs. L. E. Herr, of Lexington, Mrs. O. B. Williams, Mrs. R. H. Hackett, Mrs. A. M. Hackett, Mrs. A. Sawyer, Mrs. Mary Horton, Mrs. Fannie Wade and Mrs. A. L. Savage.

With Mrs. A. J. Gaird as hostess the afternoon of last Thursday was delightfully spent at her home on Perry street by the Flinch Club and a few other guests. Several interesting games were played after which Mrs. Gaird, assisted by her sister, Mrs. Vic Pritchard, served a delicious luncheon, and presented each guest with a souvenir of a beautiful coronation. All present thoroughly enjoyed the afternoon and the members of the club pronounced it one of the most pleasant meetings they have had since their organization the first of the winter. Those present were: Mrs. R. H. Hackett, Mrs. Robt. Hurrett, Mrs. T. H. Roberts, Mrs. J. D. Higgs, Mrs. G. R. Vinson, Mrs. S. J. Justice, Mrs. Naudie Hays, Mrs. Fannie Wade and Mrs. A. M. Hughes.

About thirty emigrants, men, women and children, left Louisa Monday afternoon for various points in the west. The majority of them went to Arizona. The others to Portland, Oregon and Hawaii, Idaho. These people are all a good class of citizens and are from the upper half of the country, this county. They are going to those places for the purpose of becoming settlers and making permanent homes. They were secured for the C. & O. Railway and its connections by Passenger Agent, Joe Newman, of Huntington. They were the families of Brown and Jsa. Skages and L. M. Ferguson.

If Louisa could raise \$50,000 or \$100,000 to apply to the purchase of sites for enterprises of various kinds now open to Louisa here, we could make this a town of 5,000 inhabitants within two or three years. If all our business men could see the thing in the proper light they would feel that they could afford to be very liberal. There are opportunities enough open to us now. If improved, to insure a two-fold increase in the business of almost every one in the community. In considering these things, figure what you can afford to pay to have your income doubled. It is simply a business proposition.

NOTICE. All persons interested, and the public generally, are hereby notified that the first of Shipman & Hackett, composed of W. F. Shipman and H. H. The farm is within a mile of the town.

Several young people gathered at the home of Mr. and Mrs. James Q. Lackey on the evening of St. Patrick's day and gave them a surprise party. As is always the case in this home it was indeed an enjoyable affair and the guests remained until a late hour. They took along crackers, pickles and cheese which constituted the lunch.

You are invited to attend the millinery opening at the Hackett Store, Thursday, Friday and Saturday of next week.

Two Canning Factories.

It is now said that Louisa to have two canning factories. Representatives of the Hastings Industrial Co. said to be professional promoters, first circulated a subscription paper here for the sale of canning factory stock. Later on, specifications were produced by the company providing for a certain kind of plant of 10,000 cans daily capacity. Upon subsequent investigation the people became convinced that the Hastings people were not giving them the kind of plant necessary to success, and that the price charged was exorbitant. The w/dctors had told the people that if the proposition in the contract was not satisfactory they would erect the factory for a commission of ten percent, on the actual cost of the plant and building. When the Louisa Canning company organized and incorporated, it proposed to the Hastings people to have them build a factory of 25,000 cans capacity upon the ten percent proposition referred to above. The promoters failed to accept this and the canning company proceeded to contract for a factory at the lowest prices obtainable. The price quoted was that the Louisa Canning Co. will be able to build a plant of double the capacity of that proposed by the Hastings company, and with additional labor-saving machinery, for less than \$4,900. The Hastings people's contract calls for \$4,500.

The Hastings company representatives say they are going to build their factory also, and try to force the subscribers to pay for it. The subscribers say they will resist any effort to collect and will fight it to the end in the courts. Whether a law suit results from this or not, the experience should at least teach the Louisa people to investigate the details of propositions submitted to them by professional promoters before subscribing to their schemes.

Sale of Personal Property.

Mr. L. M. Copley will not move to Huntington, as was for awhile contemplated, but has taken charge of several counties in this section for a prominent insurance company and will have his headquarters at Louisa.

Canning Crops.

Beans grown for the Canning Factory will pay from \$15 to \$125 per acre. Tomatoes will yield six times or more as many bushels as corn and pay from \$30 to \$50 per acre. No farmer should fail to get a contract with the Canning Company and raise one acre or more of beans and two or three acres of tomatoes at least, as it will pay you and is no experiment, far at other places where they have canning factories they raise hundreds of acres of beans, tomatoes, etc., and pay the farmers thousands of dollars for them every year.

See Mr. Chesterfield, the manager of the Canning company, before it is too late, for particulars or contracts.
